(5) National and International Standards (which Professor Kaoru Ishikawa was involved in establishment/revision)

Note: All the thesis belong JIS unless otherwise specified.

1) Japanese Industrial Standards (JIS)

1. [1] to [36] are standards for which the Japanese Standards Association formed the draft production committee and Professor Ishikawa was either head of the

Divisional Council of Standards or member of the draft development subcommittee.

2. Standards for which the Union of Japanese Scientists and Engineers formed the draft development committee and for which Professor Ishikawa was chairman (marked with ♠).
3. Standards for which the Japanese Iron & Steel Federation formed the draft development committee and for which Professor Ishikawa was chairman (marked with ♣).
4. Standards not classified in the three above, for which Professor Ishikawa was chairman (marked with ♥).

Note: The numbers omitted are those that have been deleted after redundancy was found in the editing stage. The list is based on the list of presentations and papers that are Professor Kaoru Ishikawa's legacy. Please note that the volume number, page, etc., are not fully confirmed. The same applies for overseas publications related to the professor, due in part to language problems. Still, they have been featured according to Professor Ishikawa's bibliography.
