**Abstract**

This year, ICQCC will have the history of 36 years. Since 1981, I have privately participated in ICQCC 19 times (continuously 13 times from 1998) and presented in ICQCC for 5 times. As I became over 70 years old, I want to present the change of the state of the ICQCC, and the state of each participating countries considering my experience, as well as the proposal for the future of ICQCC, as my last presentation.

QC Circle activity was born in Japan and has been developed in many foreign countries. Now, Southeast Asian countries such as India, Thailand, and Malaysia have become the center of the activity and continue developing the activity. There, we can see activities with vigor and feverish excitement that once was seen in Japan, and the approaches supported by countries.

I, who have seen such activities, want to propose suggestions to ICQCC and Japanese QC Circle activity.

### 発表要旨

今年 36 回目を迎える ICQCC に、1981 年以来過去 19 回 (1998 年からは連続 13 回) 個人参加し、5 回の発表をしてきたが、古稀を過ぎたのを機に、今までの大会を振り返り、大会の様子の変遷、各国における大会の状況などをまとめ、今後の大会への提言を行なう。

日本で生まれ育った QC サークル活動が各国に広まって行き、今やインドをはじめとした東南アジアが活動の中心になり、発展を続けている。そこには今の日本では失われてしまった様な活気・熱気に満ちた活動が行われ、国を挙げての取り組みが見られる。

その様な取り組みを見てきた目で、今後の ICQCC 並びにこれからの日本の QC サークル活動に対する提言を行なう。
