

# Call for Nomination : 2011 5WSCQ Best of Best !

--- Best of Best papers will be nominated from papers that have won the best or quasi-best prized in local conference or symposiums ---

The World Congress for Software Quality (WSCQ), a major international gathering of software quality professionals begun in 1995, has scheduled its fifth conference for 31 October – 4 November 2011, in Shanghai, China. WSCQ has been a partnership of the Software Division of the American Society for Quality, the Software Group of the European Organization for Quality, and the Union of Japanese Scientists and Engineers.

"United Under One Banner: Best of Best Quality" is a proposed framework for concerted action to be launched at WSCQ 2011. We are seeking to build a worldwide network of collaborating professionals, specifically directed at a three-year initiative to enhance the reliability, security, and empowering value of software-based systems... to be reported on at the next major WSCQ event in 2014.

**We would urge you to identify those who are exceptional at your upcoming event.** Attached is the form for nominating "Best of the Best" presenters for consideration by the 2011 World Congress. The process is as follows:

- Each conference submits one or more such nominations.
- WSCQ contacts the nominated individuals to determine their interest in submitting a proposal to the Congress, providing details on the " United Under One Banner: Best of the Best Quality " -- the topical framework for the 2011 event.
- Proposals from nominated individuals will receive expedited consideration for inclusion on the program.
- Accepted proposals will entitle the presenter to a complimentary conference registration.

We would also encourage other conferences with which you are involved to consider making nominations as well.

Please let us know if you have any questions or suggestions.

Best wishes,  
Yoshinori Iizuka and Dehua Ju  
Executive Committee Co-Chair
